Shruti Kapoor

Automation & Controls Engineer

shruti.kapoor.25836@example.com | +91-9876-543210 | 14 Innovation Drive, Noida, Telangana 490454

Professional Summary

Results-driven Automation & Controls Engineer with 1+ years of experience designing, implementing, and managing industrial automation solutions. Proven expertise in PLC/SCADA systems, DCS integration, and process optimization. Demonstrated track record of reducing production downtime by 20%+ and leading cross-functional teams. Seeking Senior Controls Engineer role to leverage automation expertise and mentor next-gen engineers.

Technical Skills

- PLC Programming: Siemens S7-1200/1500, Allen-Bradley CompactLogix/ControlLogix, Structured Text, Ladder Logic
- SCADA & HMI: WinCC, FactoryTalk, Wonderware, Ignition
- Industrial Networks: Profibus, EtherCAT, Modbus, OPC-UA
- Control Theory: PID Control, Process Control, Motion Control, Safety Systems
- Manufacturing: Machine Automation, Assembly Line Optimization, Packaging Systems, Material Handling

Work Experience

Controls Engineer

TechForwards Logistics | 2025 - 2026

- Spearheaded IIoT initiative connecting 15 machines to cloud analytics platform, enabling predictive insights
- Mentored 4 junior engineers resulting in 3 promotions within 2 years
- Implemented real-time production analytics integration reducing defect detection time from 4h to 12min
- Reduced engineering project delivery time by 25% through process standardization and automation frameworks

Education

B.Tech in Electrical Engineering

National Institute of Technology | Graduated: 2017 | GPA: 7.54/10

Relevant Coursework: Control Systems, Industrial Electronics, Digital Systems, Power Electronics

M.Tech in Control Systems

Institute of Technology Mumbai | Graduated: 2019 | GPA: 8.64/10

Relevant Coursework: Advanced Control Theory, Process Control, Real-time Systems

Certifications

- Siemens SIMATIC Automation & Drives Certified (2022)
- SCADA Systems Administration Certified (2020)

Projects

SCADA System Integration

- Deployed WinCC SCADA system integrating 45+ sensors across production floor
- Impact: Real-time visibility, 22% reduction in downtime

Tractor Assembly Line Automation

- Designed and implemented PLC-based automation for multi-station assembly line
- Impact: Reduced cycle time by 18%, increased throughput by 25%

Motor Control & Protection System

- Engineered comprehensive motor control logic with safety interlocking
- Impact: Zero safety incidents, 99.8% uptime achievement

Predictive Maintenance Logic

- Developed diagnostic algorithms for equipment health monitoring
- Impact: Prevented 3 major failures, saved $180K in unplanned downtime

Additional Competencies

- Strong problem-solving and analytical mindset
- Excellent communication and stakeholder management
- Team collaboration and knowledge sharing
- Continuous learning and professional development

Languages

- English
- Hindi
