Suresh Singh

Automation Controls Engineer

suresh.singh.12345@anonmail.com | +91-9876-543210 | 68 Innovation Blvd, Kolkata, West Bengal 268368

Professional Summary

Experienced Automation Controls Engineer with 4 years of hands-on expertise in PLC programming, SCADA systems, and industrial automation. Strong background in process control, electrical systems design, and manufacturing environments. Committed to delivering robust, efficient automation solutions that optimize production.

Technical Skills

- PLC Programming: Siemens S7-1200/1500, Allen-Bradley CompactLogix/ControlLogix, Structured Text, Ladder Logic
- SCADA & HMI: WinCC, FactoryTalk, Wonderware, Ignition
- Industrial Networks: Profibus, EtherCAT, Modbus, OPC-UA
- Control Theory: PID Control, Process Control, Motion Control, Safety Systems
- Manufacturing: Machine Automation, Assembly Line Optimization, Packaging Systems, Material Handling
- Electrical Systems: Circuit Design, Wiring, Power Systems

Work Experience

Controls Engineer

AutoTech Industries | 2023 - 2026

- Led DCS integration project connecting legacy systems to centralized control hub (40+ instruments)
- Reduced downtime by 18% through predictive maintenance alarm logic and diagnostics
- Trained 8 technicians on PLC programming best practices and safety protocols
- Designed and implemented PLC automation logic for three production lines, reducing cycle time by 22%

Senior Controls Engineer

TechSolutions Ltd | 2021 - 2022

- Led DCS integration project connecting legacy systems to centralized control hub (40+ instruments)
- Designed and implemented PLC automation logic for three production lines, reducing cycle time by 22%
- Developed and optimized SCADA dashboards improving visibility into 50+ process parameters

- Trained 8 technicians on PLC programming best practices and safety protocols

Education

B.Tech in Electrical Engineering

National Institute of Technology (NIT)

Graduated: 2014

Certifications

- IEC 61131-3 PLC Programming Standard (2022)
- SCADA Systems Administration Certified (2020)
- Siemens SIMATIC Automation & Drives Certified (2022)

Projects

SCADA System Integration

- Deployed WinCC SCADA system integrating 45+ sensors across production floor
- Impact: Real-time visibility, 22% reduction in downtime

Predictive Maintenance Logic

- Developed diagnostic algorithms for equipment health monitoring
- Impact: Prevented 3 major failures, saved $180K in unplanned downtime

Motor Control & Protection System

- Engineered comprehensive motor control logic with safety interlocking
- Impact: Zero safety incidents, 99.8% uptime achievement

Achievements

- Strong problem-solving and analytical mindset
- Excellent communication and stakeholder management
- Team collaboration and knowledge sharing
- Continuous learning and professional development

Languages

- English
- Hindi
