JANANI YARLAGADDA
Second Year Postgraduate
Department of Computer Science and Engineering
janani.yarlagadda@iitgn.ac.in
+91 7075918273

Education

Degree	Institution	CPI/%	Year
M.Tech, CSE	IIT Gandhinagar	9.14	2025-Present
B.Tech, IT	Andhra University College of Engineering, AP	8.95	2021-2025
Class XII	Narayana Junior College, Andhra Pradesh	99%	2019-2021
Class X	Z.P.P.High School, Andhra Pradesh	9.8	2018-2019

Internships

- **Research Intern, TCS** **[May-July 2026]**
  Offline Reinforcement Learning over Event Knowledge Graph Data under Reward-free Conditions
  - Studied the lack of reward information in reinforcement learning trajectories built from event sequence data across domains like healthcare and finance.
  - Designed and tested an explicit reward model for event sequences as a domain-agnostic baseline.
  - Developed a preference-elicitation method using minimal expert feedback to refine the reward model.
  - Proposed an implicit reward modeling approach as a future direction for event-centric decision-making systems.

Projects

- **Class Scheduling Automation System** **[2025]**
  - Designed a web-based Timetable Generator to automate class scheduling across departments, years, and sections, replacing a manual process.
  - Developed a rule-based scheduling engine (Python, Flask, SQL) that assigns classes while satisfying faculty availability, room capacity, and workload constraints.
  - Integrated fixed institutional slots (NCC/NSS, Swachh Bharat) into the scheduling logic.
  - Eliminated manual scheduling conflicts and cut timetable creation time significantly.

Certifications

- **Programming, Data Structures and Algorithms Using Python from NPTEL** **[Jan-Mar 2024]**
  Silver Elite
- **Fundamental Algorithms: Design and Analysis from NPTEL** **[Jan-Feb 2024]**
  Silver Elite

Achievements

- Secured State 3rd rank in BIEAP board exams **[2021]**
- Department Rank 1, B.Tech in Information Technology and Computer Applications, Andhra University College of Engineering **[2025]**
- Dean's List Award, Semester 1 (M.Tech), IIT Gandhinagar **[2026]**

Skill Summary

- **Languages:** Python, C, JavaScript
- **Web Development:** HTML, CSS
- **Technical Skills:** Database Management, Problem Solving, Data Structures and Algorithms, Full stack Web development
- **Tools:** Visual Studio Code, Git
- **Machine Learning:** Numpy, Pandas, Matplotlib

Extra-Curricular Activities

- **Ramakrishna Mission — Volunteer,** Taught Navodaya and NMMS exam preparation, and supported health camps.
- **Build Bharat Through AI — Hackathon Volunteer,** Supported a National-Level 2-Day Hackathon at Andhra University.
